To Whom It May Concern,

October 23, 2013

In May of this year, we experienced extensive hail damage to all three of our buildings on our church campus at L.G.C.T. We were approached by many roofing contractors who were interested in replacing our roofs. When we made our final decision on which company to use, there was one who stood out among the rest.

CSI Renovations, under the leadership of Chris Irving and Chris Peterson accepted the massive challenge to replace all of our roofs and renovate our campus property. Their commitment to excellence went beyond our expectations in more ways than one.

Their passion was not to complete a project in which they were proud of...rather a project that we could be proud of. When all was said and done, CSI met and exceeded our expectations and provided us with a church campus we are truly be proud of!

In His Service,

Senior Pastor Dean M. Porter

Lake Granbury Christian Temple
